

THANK YOU FOR YOUR DEDICATED COURAGE AND LEADERSHIP

We're proud to support the front lines of health care.

To Our Health Care Leaders and Providers:

First, we would like to thank all of the health care providers across the country for your dedicated courage and leadership as we combat the coronavirus disease, which continues to take its toll on our communities. We salute all health care workers and first responders for your bravery, compassion, and diligence.

Henry Schein takes seriously the promise we make to our customers – Rely on Us – and that promise is especially meaningful in challenging times. Among our many efforts, we've announced our distribution of two point-of-care antibody rapid tests, shared information on the benefits of virtual care with Medpod, our Telemedicine Solution for health care professionals, and developed a Coronavirus (COVID-19) Resource Center.

Additionally, Henry Schein is a participant in the White House's COVID-19 Supply Chain Task Force, and has worked with the U.S. government to ship personal protective equipment (PPE) from the Strategic National Stockpile to testing sites in support of front-line health care professionals. The Company is also working with the Federal Emergency Management Agency (FEMA) to source and deliver critical supplies quickly, in accordance with directions from the U.S. government.

We thank you for your service, and we applaud your personal sacrifice to stop the spread of the coronavirus and to keep our local communities healthy under these extraordinary circumstances.

Sincerely,

Bradford C. Connett

More information on Henry Schein's key efforts:

COVID-19 TESTING

In collaboration with our diagnostic partners, we introduced a wide array of diagnostics specific to COVID-19. Our new point-of-care antibody tests can deliver test results within 15 minutes from a pinprick with no instrumentation required. Our portfolio allows health care professionals to use the results with a patient's medical history, symptoms, and results of other relevant testing, to make informed decisions about patient treatment and care. Our ultimate goal is to help get Americans back to work.

MEDPOD FOR TELEMEDICINE

Medpod, Henry Schein's telemedicine platform, comes in highly versatile configurations including a cloud-based version without devices and complete units deployed in a suitcase, stand-alone cart, or a mobile facility. To learn more about the benefits of virtual health care, please visit www.henryschein.com/medpod.

RESOURCE AND EDUCATION CENTER

Henry Schein's Coronavirus (COVID-19) Resource Center and Coronavirus (COVID-19) Education Center on our website delivers frequently updated information and offers educational resources to help customers with the wide range of issues presented by the outbreak.

THE CATALYST ADVANCING HEALTH CARE

Henry Schein has partnered with **Medpod**, a software solution that transforms health care delivery.

By transforming telemedicine with **the most comprehensive scalable telediagnosics platform**, Medpod connects groundbreaking software and medical devices, optimizes health care delivery and maximizes patient management throughout the continuum of care.

Medpod elevates the medical standard for **higher quality care between remote provider and patient, regardless of their physical location** – maximizing flexibility and opportunity for your practice.

Are you ready to navigate the future of telemedicine?
Let Henry Schein Medical and Medpod lead the way.
