

STRONG TOGETHER TODAY... STRONGER TOGETHER TOMORROW

The COVID-19 pandemic is our generation's most severe healthcare challenge.

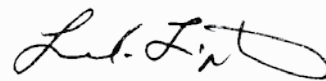

We are so grateful to our healthcare professionals who selflessly put themselves out there every day to care for our citizens. You are truly heroes and we are here to support you in any way possible.

Our employees are committed to maintaining business continuity and manufacturing during this time to continue to provide the diagnostic tools you need.

Sekisui Diagnostics is here for you because we understand every result matters. We will get through this, together.
